

You Entered $v_0 = 2.5000 \times 10^1$, $\theta = 4.0000 \times 10^1$ degrees, and $g = 9.8100 \times 10^0 \text{ m/s}^2$.

Total Flight Time = $3.2762 \times 10^0 \text{ s}$

Horizontal Range = $6.2743 \times 10^1 \text{ m}$

Maximum Height = $1.3162 \times 10^1 \text{ m}$
